Best for	Incredibly strong and versatile. The leading multi-purpose waterproof glue.	Clear, non-foaming, but still just as tough.	The all-purpose way to bond building materials. It'll grab virtually anything.	Strong, fast wood glue with short grip-time.	Gorilla-strong instant bond with Impact-Tough™ formula.	Strong, permanent, fast and gap-filling bond. Great for multiple surface applications.	Delivers a truly heavy-duty bond. Our strongest epoxy yet.	All-purpose, with a tough, no-run formula.
Open Working Time	Tough repairs on dissimilar surfaces, both indoors and out.	Transparent fixes where you don't want the glue to expand.	Use it indoors or out, even underwater, for a tough bond that'll last.	Building, carpentry or hobby projects using wood.	Instant repairs on smaller indoor projects.	Tough repairs requiring a durable bond, gap filling and solvent resistance.	When you need versatility, but with a titanium bond.	Fabrics, crafting and more. It's repositionable & washing machine safe.

GG_Guide_0419

Gorilla Glue

Bonds

Stone, metal, ceramic, glass, wood, foam, brick, concrete and more!

High strength and versatility

For most household fixes and building repairs, indoor or outdoor.

100% waterproof

Won't break down when exposed to moisture.

Gorilla Glue Clear

Crystal clear

So clear it's virtually invisible.

Non-expanding

Foam-free formula that doesn't expand when curing.

Highly versatile

Ideal for glass applications, subtle repair work and nearly all clear fixes.

Gorilla Mould Resistant Sealant

Seals

Seals showers, baths, sinks, toilets, windows, doors, worktops and more!

30 minute water-ready

Can be exposed to water in as little as 30 minutes. That's fast.

Long-lasting

Offers protection against mould and mildew. Plus it won't yellow, shrink or crack over time.

Gorilla Grab Adhesive

Bonds most surfaces

This all-round construction adhesive grabs virtually anything.

Indoor/outdoor

Not just weather-resistant, it even works underwater.

Temperature resistant

Withstands extreme heat and cold.

Gorilla Tape

Tough, weather-resistant shell

Helps create a barrier that can withstand harsh elements.

Strong, reinforced backing

Tight reinforced weave, but can still be ripped by hand.

Double-thick adhesive

Fills in gaps on rough, uneven surfaces for extra grip.

Gorilla Tape Crystal Clear

High Strength

Like original Gorilla Tape, this one is just as strong.

100% Waterproof

Not just waterproof but even sticks underwater!

Thousands of uses

Automotive, camping, inflatables, smart screens and much more.

Gorilla Wood Glue

Complete projects faster

Bonds strongly, requiring only 20-30 minutes' grip time.

Indoor/outdoor

Great for indoor jobs but also offers D3 water resistance.

Versatile

Use on hardwoods, softwoods and wood composites².

Gorilla Super Glue

Bonds

Metal, wood, ceramic, paper, rubber and more!

Impact-Tough™

Unique formula reduces chance of bond breaking, even on impact.

Easy to use

Dries in just 10 seconds, with no gripping required.³

Gorilla Epoxy

Bonds

Metal, plastics¹, stone, wood and more!

Dries crystal clear

So clear, you can bond two pieces of glass. It's virtually invisible.

Gap filling

Fills voids and also works on uneven and vertical surfaces.

GorillaWeld

Titanium tough

Holds up to 4250psi (298kg/cm²)

Versatile

Perfect for metals, plastics⁴, concrete, ceramics, PVC⁵ and fibreglass.

Adaptable

Can be shaped, tapped, filed, sanded and drilled after curing.

Gorilla Contact Adhesive

100% waterproof

Ideal for fabrics, washing machine safe and can withstand rain.

No-run formula

No run, no drip, no making a mess.

Repositionable

Holds in seconds but allows flexibility when positioning.

Gorilla Waterproof Patch & Seal Tape

Works fast

Designed to instantly repair emergency leaks.⁶

100% waterproof

Patch over holes, cracks, gaps and tears. Even underwater.

Flex and stretch

Mould and shape to fit uneven surfaces.

¹Performance will be dependent on surfaces and conditions. Surfaces must be clean, smooth and non-porous. Water must be pressed out from underneath tape. May not adhere to silicone or water-repellent materials. ²Not suitable for pressure treated timber. ³Press surfaces together for between 10-45 seconds. ⁴Bonds most plastics, but not polyethylene, polypropylene, Teflon or bitumen surfaces. ⁵Not recommended for PVC plumbing applications. ⁶Not for use on seams, applications under pressure or automotive applications under the bonnet.
